Portfolio: <http://vbarajas4.github.io/02-Advanced-CSS-Portfolio/>

Motivated Full Stack Web Developer and recent graduate of UCSD Full Stack Web Development Course. Experience with designing, developing, and implementing applications using a variety of programming languages. I seek a career in which I can apply the skills I've learned in my study of full-stack web development, and to become an asset to the company in which I will collaborate with and continue to grow.

Technical Skills

Front End: HTML, CSS, JQuery, Bootstrap

Back End: MySQL, MongoDB, Express, React JS, Node

Projects

Password Generator — HTML, CSS, JavaScript

This project randomly generates a password that meets certain criteria so that it can create a strong password that provides greater security.

Experience

National School District, National City, CA

Library Media Specialist

Sept 2015 - PRESENT

My role is to circulate books to students; keep it updated with materials students want to read and informational books that will cover students' common core standards. I am also responsible for all the devices and teachers' materials that get distributed to staff and students. I perform basic troubleshooting in technology and teach library skills to students.

1. Brought back Scholastic Book Fairs to our students: 3 Book Fairs per school year making about \$3,000 to \$6,000 per Book Fair.
2. Purchased new book orders of about \$10,000 per year, for students to read.
3. Keeping the library organized, labeled, with popular books for students to read made it easier for students to come and check out books they were looking for.

Charles Public School County, Charles County, MD

Library Media Specialist Long Term Substitute

Sept 2013 - June 2014

My role was to circulate books and catalogue new books given to the school library.

1. The library hadn't had an inventory done in years of the books in their shelves. I took it upon myself to learn the process and do one at the end of the school year.
2. I planned lessons with activities that made students look forward to coming to the library
3. Placed an order of new books where inventory was low.

Education

UCSD Bootcamp Coding, San Diego, CA

Present

Certificate: Full Stack Web Development

Intense program to give us a well rounded focus of both front end and back end web development.

CSULB, Long Beach, CA

Bachelors of Arts Liberal Studies

Multiple Subject Teaching Credential; Concentration in Math; Bilingual Credential
